# Z-RELEASE MOUNTS

Zacuto is the inventor of quick-release mounts for filmmaking. After 20 years of shooting, owners, Jens Bogehegn & Steve Weiss were tired of screwing and unscrewing accessories and came out with their innovative line of quick-release products. Made in the USA, Lifetime Warranty, and Universal.

## ZUDS

Sku: ZUD

- Convert your threaded articulating arms to a Zacuto Z-release system by using our ZUDS
- ZUDS convert  $\frac{3}{8}$  16" or  $\frac{1}{4}$  20" threads to 15mm rods
- Available in female  $\frac{3}{8}$  16",  $\frac{1}{4}$  20" and male  $\frac{3}{8}$  16" and  $\frac{1}{4}$  20"
- Locking screw prevents unwinding
- Accepts Zacuto rod extensions to lengthen arm

List:  
male \$49  
female \$44

## Zicromount

Sku: Z-ZC  
List: \$75

- Used to mount any device with a  $\frac{1}{4}$  20" thread. With  $\frac{3}{8}$  16" devices convert them to  $\frac{1}{4}$  20" with a  $\frac{1}{4}$  20" to  $\frac{3}{8}$  16" adapter
- Is screwed into the bottom of the device such as a monitor and mounted to any 15mm rod or the Zamerican Arms and is now quick-releasable
- Release or tighten with quarter turn of the lever

## Z-Mount II

Sku: Z-MO-2  
List: \$144

- Allows you to mount accessories off a 15mm rod using a Zamerican Arm or any 15mm rod
- Can also be used with a threaded arm but requires a ZUD
- Release or tighten with quarter turn of the lever

## Zround Mount

- Converts  $\frac{3}{8}$  16" thread holes to 15mm holes quick-release mounts
- Most commonly used to retrofit the Zacuto DoubleMount or MiniMount to accept Zamerican Arms
- Release or tighten with quarter turn of the lever

Sku: Z-RM  
List: \$120

## Zicromount III

- Used to mount any device with a  $\frac{1}{4}$  20" thread. With  $\frac{3}{8}$  16" devices convert them to  $\frac{1}{4}$  20" with a  $\frac{1}{4}$  20" to  $\frac{3}{8}$  16" adapter.
- Is screwed into the bottom of the device such as a monitor and mounted to any 15mm rod or the Zamerican Arms
- Has the ability to attach to the device using two screws or act as a mini baseplate by adding an optional camera locking pin
- Includes L shaped claws or "fangs" to prevent devices from turning and unwinding
- Release or tighten with quarter turn of the lever

Sku: ZM-3  
List: \$92

## Zandy

Sku: Z-ZNDY  
List: \$144

- Allows you to mount accessories off a 19mm rod using a Zamerican Arm or any 15mm rod
- Can also be used with a threaded arm but it requires a ZUD
- Release or tighten with quarter turn of the lever

## Ztudio

Sku: Z-ZTD  
List: \$144

- Used to mount a 19mm rod perpendicular to a 19mm rod
- Used for Red Camera Birger Mount to relocate ET EVF mount
- Release or tighten with quarter turn of the lever

## $\frac{1}{2}$ " to $\frac{1}{4}$ 20" Adapter

Sku: Z-ARM-ADPT  
List: \$19

- If you don't need quick release on both end of the arms, this is the answer
- Converts the Zamerican arm or any Zacuto 15mm rod to a  $\frac{1}{4}$  20" thread
